

# Target areas of unwanted fat

**LIPOTHERME™**  
BY OSYRIS

If you've tried diet and exercise and still can't get rid of unwanted bulges, consider this. Lipotherme laser lipolysis is a proven, safe and effective procedure that eliminates unwanted fat.

Dr. [Insert Name Here] performs this minimally invasive procedure using local anesthesia so you are awake the entire time. A single or multiple areas can be treated and you'll be back in action the next day. All it takes is one treatment.

To learn how you can remove unwanted fat, call Dr. [Insert Name Here] at 000-000-0000 to schedule a confidential consultation or visit [www.medspaaddress.com](http://www.medspaaddress.com) for more information.
